

# INSTRUCTIONS

[Save and copy these instructions]

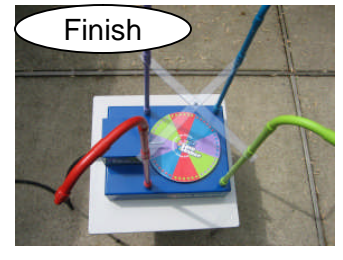

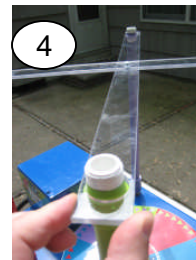

## GAME ELEMENTS:

- Spin Soaker game unit
- Clear Spout Stabilizer "X"
- 4 colored Straight Spout Tubes
- 4 colored Curved Spout Tubes with Power Shower spray heads

## SETUP INSTRUCTIONS:

1. Place Spin Soaker game on sturdy table, in an area with good drainage.
2. Connect garden hose to garden hose connector on game rear (note, game works with any size garden hose but 3/4" hose provides best water pressure to spouts)
3. Connect Straight Spout Tubes to the brass spout tube connectors on game top. DO NOT OVERTIGHTEN.
4. Open the Clear Spout Stabilizer "X" and place the end holes over the tops of the Straight Spout Tubes. The "X" should be centered over the game wheel.
5. Connect the Curved Spout Tubes to the tops of the installed Straight Spout Tubes, matching the colors, and locking in the Clear Spout Stabilizer "X". DO NOT OVERTIGHTEN.
6. Place 4 chairs around the table and game so that each char sits directly under one of the spouts.
7. Turn on water – have fun!

## PLAY INSTRUCTIONS:

Play without Power Showerhead (unscrew from spout)

Water spreads with Power Showerhead

- Spin the wheel in CLOCKWISE direction.
  - When wheel stops, person seated under spout whose color matches the wheel position presses the silver handle.
  - Someone (or 2 people) get a surprise soaking!
  - The person who pressed the handle takes the next turn spinning the wheel
